Blood Bank of San Bernardino-Riverside Counties

Blood Bank of San Bernardino-Riverside Counties

The Blood Bank of San Bernardino-Riverside Counties drew its first donor on June 9, 1951. Developed by the two County Medical Societies on the strength of contributions from member physicians. The Bank has grown parallel to the expanding population of the two counties and the 30 hospitals it serves. The Bank serves its community not only as its sole blood supplier, but as an educational and reference center as well, administering an SBB program, educational seminars and reference and HLA laboratories.

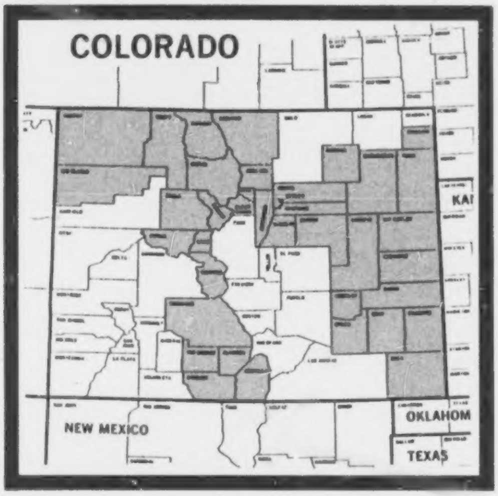
Belle Bonfils Memorial Blood Center



Belle Bonfils Memorial Blood Center
The Belle Bonfils Memorial Blood Center was officially opened February 27, 1942. In December 1945, it was reorganized and incorporated. In September 1945, it was designated the official blood bank of the Colorado State Medical Society. A small grant from Helen C. Bonfils made the establishment of the Center in memory of her mother, Belle Bonfils. It is nonprofit, self-supporting and the only community blood center in Denver and Colorado. Its set of basic goals are supply, quality, accessibility and efficiency. It provides services to 51 hospitals in Denver and the state of Colorado.

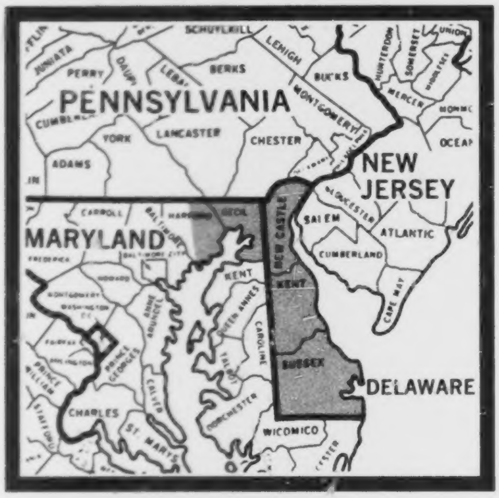
Blood Bank of Delaware, Inc.



Blood Bank of Delaware, Inc.
Blood Bank of Delaware was established as a donor scheduling/blood assurance program in 1955. In 1977, the organization became a full-service community blood bank serving 14 institutions in the state of Delaware and northeast Maryland. Today it provides all the blood and components required in the region. In 1983 Blood Bank of Delaware initiated a capital campaign to construct a new headquarters building. The goal of $1.6 million was exceeded and by early 1986 it is anticipated the Blood Bank's new address will be 100 Hygeia Drive, Newark, Delaware.

Jacksonville Blood Bank, Inc.

Jacksonville Blood Bank, Inc.
The Jacksonville Blood Bank began receiving donors on October 27, 1942. The JBB was started by the Duval County-Jacksonville Defense Council to support the military and civilian population during the war effort. Since the time of its founding, the JBB, a nonprofit organization, has provided all of the blood and related services to all of the hospitals in the Jacksonville area. The JBB provides blood for hospitals in seven counties. The JBB draws approximately 40,000 units of blood per year.

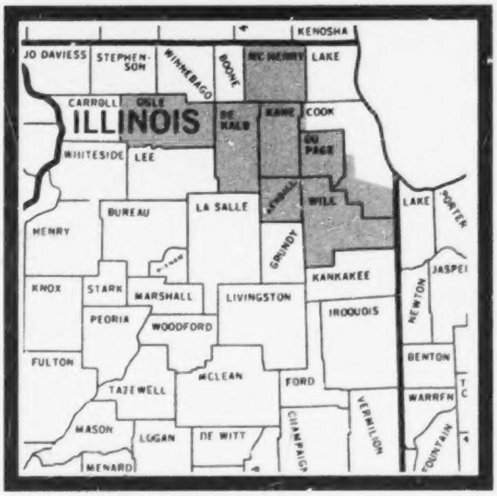
Aurora Area Blood Bank



Aurora Area Blood Bank
The Aurora Area Blood Bank and Donor Society was incorporated in 1943 to serve the hospitals in Aurora. The Aurora Area Blood Bank has since grown to be a full service blood center providing all the blood needs for the patients in 22 hospitals west and south of Chicago. It has four subcenters in addition to the main center in Aurora. In 1984 the Aurora Area Blood Bank staff of 100 employees collected and processed over 59,000 units of blood.

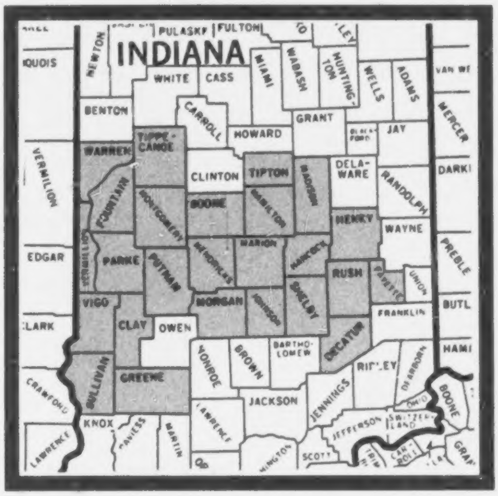
Community Blood Bank of Marion County, Inc.



Central Indiana Regional Blood Center
The organization began in 1952 as the Community Blood Bank of Marion County, Inc., a 501(c)(3), not-for-profit, tax exempt corporation formed by pathologists and hospital administrators to serve as a clearinghouse for blood movement among the hospitals in Indianapolis. In 1964, we began actively recruiting blood donors and in 1973, because of added responsibilities, became known as the Central Indiana Regional Blood Center. Today we provide blood services to 39 hospitals in 25 counties.

Camp Memorial Blood Center

The Camp Memorial Blood Center (CMBC)
The Camp Memorial Blood Center (CMBC) (formerly The Blood Bank Center) was dedicated on 12 July 1984 in the memory of COL. Frank R. Camp, Jr., MSC, US Army retired. COL Camp was the first Director/Commander of this Center. CMBC is charged with the responsibility for the collection, processing, manufacture and distribution of blood products to military medical treatment facilities in the United States (including Hawaii and Alaska) and Panama. CMBC, founded in 1965, collects blood from military personnel, their family members and Department of the Army civilian employees at Fort Knox and Fort Campbell, Kentucky, and Fort Benjamin Harrison, Indiana.

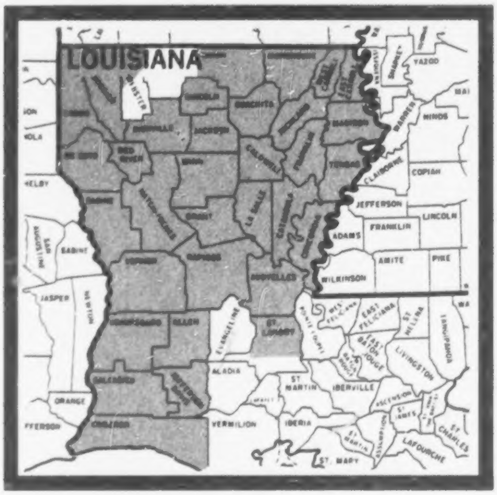
Louisiana Blood Center



The Louisiana Blood Center
The Louisiana Blood Center was established in Shreveport, June 17, 1942, as the Shreveport Memorial Blood Bank with a grant from the Shreveport Chamber of Commerce and the endorsement of the Shreveport-Bossier Medical Society. In October of 1979, at the request of the local hospitals, additional centers were opened in Alexandria and Monroe. The Lake Charles Center was opened October, 1981. At present the Louisiana Blood Center is providing service to 66 hospitals in 35 parishes.

Research Projects
Donor Safety—The role of iron in donors is presently under evaluation in conjuction with the hematology section of the Department of Medicine of the University of Kansas Medical School.

Clinical Trials—Diagnostic tests to detect antigens or antibodies to hepatitis A, hepatitis B, cytomegalovirus (CMV) and human T lymphotropic retrovirus type III have been evaluated under clinical trial protocols from various pharmaceutical manufacturers. The Center was selected by eight manufacturers to conduct the research and over 25 trials have been carried out during the past four years.

Rh Antigen Research—All blood donors are tested for Rh positive or negative. Biochemical, physiological, and genetic studies are in progress to characterize this antigen and determine its role in human diseases, such as cardiac arrhythmias, atherosclerosis, and polycythemia. Also, the Center has purified the Rh antigen to homogeneity and is in the process of producing monoclonal antibodies.

Solid Phase Adherence Tests for Pretransfusion Testing—Community Blood Center has developed a solid phase adherence technology for the detection of antigens and antibodies. Assays developed for blood banking include ABO grouping and Rh typing, irregular antibody screening, crossmatching, HBsAG detection, and platelet antibody detection and crossmatching, cytomegalovirus antigen and antibody, HTLV-III antigen and antibody. The clinical efficaciousness of these various assays can be readily correlated to the large patient population treated. Arrangements for date acquisition from single platelet recipients have already been initiated: the Center collects all such units in the region and has clinical interplay with all practicing hematologists-oncologists and hospital laboratory services.

Transfusion and Infectious Disease—Prevalence studies in the donor and employee population as well as staffs on community hospitals have been done for hepatitis A and B as well as CMV. Studies are being conducted on CMV acquired infection in premature neonates and sickle cell patients in conjuction with Children's Mercy Hospital.

A collaborative study with the National Institute of Health has assessed the frequency of CMV infections in patients receiving blood during open heart surgery. Blood donors in this study were retrospectively tested for evidence of acute CMV infection to see if donors transmitting infection could be identified by a simple, rapid blood test.

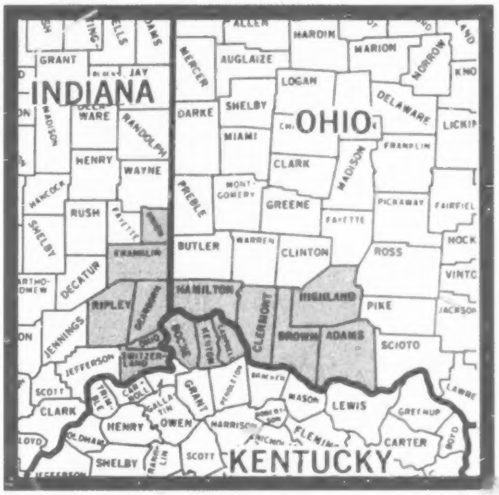
Hoxworth Blood Center of the University of Cincinnati



Hoxworth Blood Center of the University of Cincinnati
Hoxworth Blood Center was founded December 10, 1938, by Dr. Paul I. Hoxworth. It is the oldest community blood center in the country, now serving 30 hospitals in a fourteen-county region of Ohio, Kentucky, and Indiana. During the first year of operation, the community blood needs totaled less than 2,500 units. This year, more than 87,000 units of blood will be needed for our area patients.

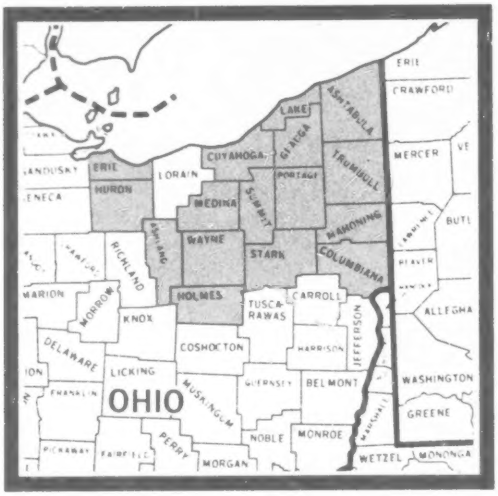
Northern Ohio Red Cross Blood Services



The Northern Ohio Red Cross Blood Services
The Northern Ohio Red Cross Blood Services was established in 1951 to serve an area of 15 counties approximately 3.75 million people. Initially, the Red Cross Center provided approximately 50% of the blood needs in Cleveland hospitals and 100% outside of Cleveland with commercial banks providing the balance. Today, the Northern Ohio Red Cross Blood Services supplies 93% of the blood for Cleveland hospitals plus 100% of the blood and components for 40 regional hospitals. The region is supplied completely with blood from volunteer donors. The Northern Ohio Red Cross Blood Services offers a complete range of blood products and services, such as reference lab, HLA lab, an SBB program and numerous other educational offerings. The Blood Center is dedicated to serving all the transfusion needs of Northern Ohioans in accordance with the highest blood banking standards.

Lane Memorial Blood Bank

lane memorial
blood bank

Lane Memorial Blood Bank
Lane Memorial Blood Bank was established under the sponsorship of the Lane County Medical Society and incorporated February 24, 1961. Operations commenced July 1, 1961, with the purpose of providing blood and blood components for Lane County residents in the five area hospitals. The blood bank has grown steadily and is now housed in a modern facility which was dedicated in 1978 and expanded in 1983 to meet future needs.

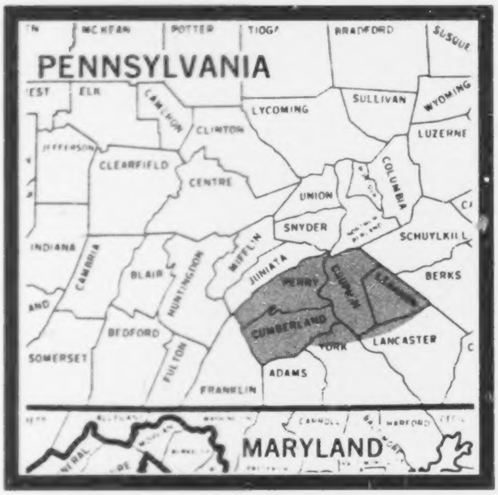
Central Pennsylvania Blood Bank



Central Pennsylvania Blood Bank

The Central Pennsylvania Blood Bank is somewhat unique in that approximately two-thirds of all bloods are drawn in our member hospitals. The remaining third is drawn on our Bloodmobile units. However, we are responsible for 100% of the blood need, 24-hours a day, 365 days per year. All donations at member hospitals become part of our master computerized donor call file, which is produced by blood type in order of date of donation. Each member hospital is inventoried twice daily and an anticipated outdate for the next eight days is obtained. Based upon this information, donors are sent to specific hospitals for specific needs, or blood is moved from one institution to another by our courier. We are also responsible for all public relations and recruitment of all blood donors for the area.

West Tennessee Regional Blood Center, Inc.

LIFELINE
Volunteer Blood Program

West Tennessee Regional Blood Center, Inc.
The predecessor, Jackson Blood Bank, was established in 1947 as a partnership venture. In 1972, it was sold to West Tennessee Regional Blood Center, Inc., a nonprofit corporation. FDA license has been continuous since 1949 at which time Jackson Blood Bank became an Institutional Member of AABB. WTRBC draws blood in three counties on the community-responsibility philosophy. The replacement-deposit fee and credit system operate in all counties. At present, WTRBC is providing complete services to eleven hospitals in seven counties and partial service to an additional eleven hospitals in eleven counties. LIFELINE, Volunteer Blood Program is the Blood Assurance Plan operated by WTRBC. In April, 1983 WTRBC moved into a new 13,450 square foot building.

SERVING THE TEXAS PANHANDLE CO

Coffee Memorial Blood Center, Inc.
Coffee Memorial Blood Center was founded in 1949. From simple beginnings, it has grown to a staff of 31 and services 20 hospitals while drawing 18,000 pints annually in 24 counties. Coffee Memorial is the total supplier for most of the Texas panhandle. It offers a full range of component products and a pheresis program to area physicians.
